

UI & UX Design Portfolio

Hi, I'm Bindu Prajapati, a passionate UI/UX design learner focused on creating user-friendly and visually engaging digital experiences. I've designed sample projects like mobile app interfaces, website layouts, and interactive prototypes using Figma and Canva. I enjoy combining creativity with usability and am eager to grow in a professional environment where I can learn from real-world projects and refine my design thinking skills.

Design focuses

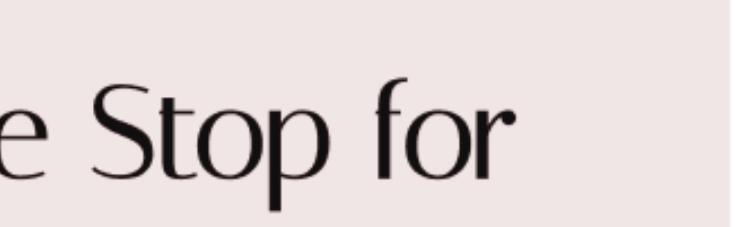

User research

"I utilize surveys, interviews, and competitive analysis to understand user needs and pain points, which informs and guides my design decisions."

Interaction design

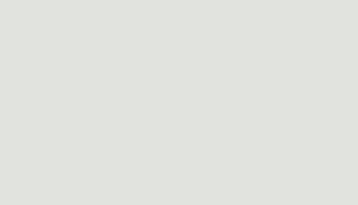

"I create user flows, detailed wireframes, and prototypes to ensure a logical and effortless journey for users across all digital touchpoints."

Visual design

"I craft appealing and accessible interfaces by applying principles of typography, color theory, and visual hierarchy to enhance user engagement."

Project #1
